

AVS SERVICE SB 085 STEP TYPE

Last Update Version 01/05/2014
1

AVS Steps use microswitches that operate as NORMALLY CLOSED. Therefore only two wires are used. In the case of 3 wires the diagrams opposite tell you which wires to use.

They can be connected either way round.

Position	Number	Type 1 Colour	Type 2 Colour
Normally Open	4	Blue	Green
Normally Closed	2	Yellow	White
Common	1	Red	Brown
